About this Car

The Hyundai KONA Electric is the first compact electric SUV in Europe. Combining impressive electric driving range with bold and distinctive SUV style. Nobody ever said that electric mobility had to be boring. Quick off the line thanks to the 395 Nm of instant torque delivered through the all-electric powertrain, KONA Electric accelerates from 0 to 62 mph in only 7.6 seconds in the 64 kWh version. You define your preferred range by selecting from two battery versions: the 39.2 kWh version with up to 194 miles and the 64 kWh version with up to 300 miles driving range on a single charge. KONA Electric's confident, unique style sets it apart from the crowd. At the front, the sleek closed grille proudly signifies its electric powertrain and together with the characteristic LED twin headlights, creates a truly one-of-a-kind look. Exclusive 17" alloy wheels and a choice of exterior colours and contrasting roof colours allow you to customise your KONA Electric to match your personal style. The all-new KONA Electric is designed to fit everything you and your busy life can throw at it – with plenty of room for both passengers and luggage with a boot capacity of 332L (VDA) including charging cable. But it's also the attention to detail that makes it so special. Discover an exceptional level of comfort with high quality materials throughout for a sensuous and refined feel. Our order book is now open with deliveries due before the end of the year! Be among the first in Northern Ireland to own this amazing new technology. Contact John Mulholland Hyundai Randalstown or Campsie today to find out more about the New Hyundai Kona Electric.
